MUNICIPALITY OF  
**SINNAI**  
LETTER TO CITIZEN

Dear Citizens,

Since few years the Municipality of Sinnai is busy in the sorting collection of waste with the modality "door to door", system which, even thank to your cooperation allowed to reach from our municipality a percentage of sorting near to 70%, allowing the gradual reduction of the fraction "dry residu". However, basing on National and Regional policies, the Municipality Administration predicted through a new service contract o hurban and environmental hygiene, some important news which, in addition to being part of a **broader environmental protection policy**, they will make it possible to obtain a significant increase in the percentage of waste separation, allowing, at the same time, our Municipality to contain the constant increase in costs and to improve the quality of services provided.

As said, **from the 1th of March 2022**, the the management of the urban hygiene service passed to the company Cosir Srl. The start-up of the new service provided for a transitory phase, during which, throughout the municipal territory, all domestic and economic users were observed, the previous waste collection frequencies.

The changes made to the services, in addition to providing for new collection frequencies, **active from 1 July 2022**, also include the use of the **Eco-mobile** and the **ecological islands in the vicinity**. Work is underway to have a new Ecocentre and, with the awareness of the inconveniences deriving from the absence of a suitable structure for the reception of waste, in the meantime, all citizens are asked to give their utmost cooperation to ensure decorum and cleaning within the municipal territory.

**While waiting for the delivery of the new Kits for separate collection and the information for the correct use of the same, the containers and bags used up to now must be used.**

Lastly, the importance of the correct differentiation of waste is recalled and checks will be activated on the correct methods of disposal. In particular:

- **Checks on the conformity of the exposed waste** may be carried out to facilitate the correct differentiation of the same, by the Cosir Company, manager of the service, as well as by the Municipal Police Command
- **Checks will be carried out to combat the phenomenon of waste abandonment** and the improper use of street waste bins
- **the use of black bags for waste collection will not be allowed**, but only transparent or semi-transparent bags that do not allow to hide differentiable materials.

Confident in the maximum participation and collaboration of all, I extend my greetings on behalf of the entire Municipal Administration.

**The Mayor**

MUNICIPALITY OF

## HOW TO GIVE

View the calendar relating to separate waste collection, according to your reference area and type of user. Currently in force from July 2022 until December 2022. 6 types of calendars are in force:

### HOUSEHOLD UTILITIES

**SINNAI TOWN CENTER  
SINNAI COUNTRYSIDE AREAS  
SINNAI, SOLANAS, E TORRE DELLE STELLE**

### BUSINESS UTILITIES

**SINNAI TOWN CENTER  
SINNAI COUNTRYSIDE AREAS  
SINNAI, SOLANAS, E TORRE DELLE STELLE**

#### **Downloadable in PDF format also from our website [sinnai.cosir.org](http://sinnai.cosir.org)**

Deliver on the days selected in the calendar by 6 am or alternatively the evening before. place the waste inside the container / envelope and display near your house number only on the days provided for in the calendar. Waste exhibited incorrectly, without reservation, in cases where it is foreseen, or on an incorrect collection day, will not be collected and a non-compliance sticker will be affixed to it.

It is also possible to deliver the waste to the ecomobile or to the nearby ecological islands (for some types of users) in the manner specified below.

#### **AVAILABLE WASTE FOR DOOR TO DOOR**

##### **HUMID/ORGANIC WASTE YES**

##### **DELIVER IN THE SPECIAL CONTAINER IN THE COMPOSTABLE ENVELOPE**

Fruit, vegetables, eggs, fish and its residues, shellfish, shells of mussels, clams etc., meat and small bones, bread, pasta, rice, food remains, kitchen scraps, rotten food, leftover coffee, thè and camomille filters, paper towels and used napkins, feces and litters of small domestic animals (if compostable, based on clay, sawdust, shavings, natural sand or paper). Small quantities of plant residues and cut flowers, extinguished ashes of fireplaces.

##### **HUMID/ORGANIC WASTE NO**

Diapers, sanitary towels, toilet paper, rags even if wet, containers for pizzas, wrappers with food residues (e.g. from butchers, fishmongers, rotisseries, etc.), excrement of farm animals (e.g. rabbits, hens, etc.). Pet litter composed of sand of synthetic origin.

##### **DRY YES**

Wraps with food residues (e.g. from butchers, fishmongers, rotisseries, etc.), rubber, music cassettes, videotapes, CDs and DVDs, plastic cutlery, pens, small plastic and bakelite objects, accessories for hair and " personal hygiene (e.g. toothbrushes, hair brushes and combs, pliers, clips, etc.), carbon paper, plasticized paper, nylon stockings, jute bags, no longer reusable rags, dressing gauze, plasters and syringes, diapers, sanitary napkins, toilet paper, absorbent paper, non-woven tablecloths, cosmetics, bird feathers, pet litter composed of sand of synthetic origin. Ceramic plates, cups and mugs and shards in general, broken mirrors. Dust from the vacuum cleaner and household cleaning, small objects in painted wood, incandescent light bulbs, small plastic objects, cigarette butts, chewing-gum, all objects formed by more than one material (excluding the tetra pack) in which it results separation impossible.

##### **DRY NO**

##### **Everything that can be recycled!**

Used napkins and paper handkerchiefs, pizza containers, plastic plates and cups, tetrapak (milk cartons, fruit juices), waste rubble, bags of cement, toxic bins, cans containing residues of any kind (eg glues, solvents , paints, resins, etc.), industrial and agricultural residues, agricultural containers containing pesticides, fertilizers and fertilizers, pvc pipes for irrigation, tires, inner tubes, batteries and car filters, engine oil and lubricants in gender and any other part of cars and motorcycles, fixtures and doors, sanitary ware, bathtubs, radiators, plumbing pipes, taps, electrical system materials, boilers, gates, railings, electrical and electronic waste, toner.

##### **PLASTIC YES**

Plastic water bottles, juices, milk, yogurt containers, cream cheese and desserts, pet food, containers for detergents and hygiene bottles. Envelopes, bags and containers for food, cellophane, brioche, chips, frozen foods, pasta, rice, meat and fish. Egg trays, trays and polystyrene packaging. nets for fruit and vegetables. Crates for fruit and vegetables (1 piece for each day of collection for domestic users). Clean cans and bins, plastic plates and cups, clothes hangers, polystyrene trays and small packaging.

##### **PLASTIC NO**

Toys, music cassettes, CDs and video tapes, plastic cutlery accessories for hair and personal hygiene (e.g. toothbrushes, hair brushes and combs, tongs, clips, etc.), waste baskets, components and car accessories, pvc pipes for irrigation, containers or bins containing residues of any type (eg glues, solvents, paints, resins, etc.) and any component in plexiglass and polyethylene, all packaging consisting of more than a matter from which separation is impossible.

##### **PAPER/CARTONS YES**

Newspapers, magazines, advertising flyers, cardboard boxes, food boxes (e.g. rice, pasta, sugar, etc.), pizza boxes, used photocopy paper, books and notebooks, tetrapak containers (e.g. milk bricks, fruit juices, tomato puree).

##### **PAPER /CARTONS NO**

Nylon, cellophane, greaseproof paper, used toilet paper, absorbent paper, sanitary napkins, diapers, carbon paper, parchment, dirty paper, used paper napkins, plasticized paper and cardboard, bags of cement. all packaging made up of more than one material, excluding tetrapak, from which separation is impossible.

MUNICIPALITY OF  
**SINNAI**

**SINNAI.COSIR.ORG**

### **GLASS YES**

Bottles, carboys, bottles, vases, glasses and glass jars.

### **GLASS NO**

Ceramic and porcelain objects, light bulbs, neon lights, mirrors, wired glass, opal glass (eg perfume bottles), television or computer screens, pyrex (such as oven dishes), door and window glass.

## CUMBERSOME WASTE

PLEASE REMEMBER THAT, UNTIL NEW PROVISIONS, IT WILL NOT BE ABLE TO PROVIDE FOR THE COLLECTION OF EEW WASTE

# TOLL FREE NUMBER AND NETWORK

800 069 960

070 68 44 15

SERVICE ACTIVE MONDAY WEDNESDAY FRIDAY  
FROM 9,00 TO 13,00 AM

TUESDAY THURSDAY SATURDAY FROM 9,00 TO 14,00 AM

### HOW TO BOOK THE COLLECTION OF CUMBERSOME WASTE OR SEND REPORTS?

Calling the provided numbers or through the website [sinnai.cosir.org](http://sinnai.cosir.org)

sending a mail to [ingombranti@cosir.org](mailto:ingombranti@cosir.org),

for information or to report disservices send a mail to [segnalazioni@cosir.org](mailto:segnalazioni@cosir.org)

### WHY MY WASTE HASN'T BEEN COLLECTED

If the waste has not been collected there are several possibilities

- They were not exposed correctly
- They have not been introduced inside the bag/container
- They have not been prominently displayed near their house number
- There are no compliant waste
- Waste was not exposed by 6 m or alternatively the evening before after 9 pm

FOR MORE INFORMATION ON SEPARATE WASTE COLLECTION, VISIT THE SITE: [sinnai.cosir.org](http://sinnai.cosir.org)

### NOTICE CHECKS DRY COLLECTION

Dear Users,

Cosir Srl, in order to monitor the correct delivery of waste by all users, carries out, as provided for in the contract, an activity of territorial

checks and verification of any failure and / or incorrect differentiation of waste.

From the aforementioned monitoring activities, it emerged that some users do not differentiate waste and continue to deliver significant quantities of easily differentiable waste to the residual dry matter, such as:

- TETRAPAK (carton containers for milk, fruit juices, wines, etc.),
- CARDBOARD BOXES OF PASTA, RICE AND BRIOCHES
- ADVERTISING FLYERS, BROCHURES AND PAPER BROCHURES
- CARDBOARD PACKAGING OF MEDICINAL PRODUCTS, TOOTHPASTERS AND COSMETICS
- PIZZA CARTONS

Which must be conferred with PAPER AND CARDBOARD

- PLASTIC BOTTLES

- PLASTIC PACKS OF PASTA, BRIOCHES, CHIPS, FROZEN PRODUCTS

- JARS OF YOGURT AND SPREADABLE PRODUCTS

- EGG TRAYS, SWEET TRAYS

- PLATES AND GLASSES WITHOUT RESIDUE (THEY MUSTN'T BE CLEANED BUT THE ORGANIC RESIDUE MUST BE ELIMINATED)

- CELLOPHANE AND PACKAGING POLYSTYRENE

- POLYSTYRENE TRAYS FOR FOOD (MEAT, FROZEN PRODUCTS, FRUIT, VEGETABLES, ETC.)

Which must be conferred with PLASTIC

ALUMINUM TRAYS AND ALUMINUM FILM

- ALUMINUM CONTAINERS OF LACQUER, SHAVING FOAM AND EMPTY DEODORANTS

Which must be conferred with GLASS AND ALUMINUM

- FOOD LEFTOVERS

- PAPER NAPKINS USED IN THE KITCHEN

- FOLIAGE

- COMPOSTABLE PLATES, GLASSES AND PACKAGING

Which must be conferred with the HUMID/ORGANIC

In light of the foregoing, if the aforementioned fractions continue to be found inside the bags / containers of the residual dry matter, the waste will not be collected.

Furthermore, remember to always use the semi-transparent bags for the delivery of dry and plastic fractions, while remembering that wet (organic) waste, green cuttings and pruning, must be delivered exclusively with compostable bags directive UNIEN 13432/02.

Finally, we take this opportunity to remind you that, for any information / clarification, our operators can be contacted on the toll-free number 800 069 960.

Confident in your full cooperation, trusting in the achievement of the objectives set, we send best regards.
